I'm a Web Developer offering enthusiasm and understanding of various programming languages. Looking to join an industry where the opportunity for growth and professional development is embraced which will inspire me to enhance my skills in Software Development and work with the team in a positive atmosphere, welcoming challenging projects and enjoying working with all sorts of personalities.

Work Experience

Software Developer

UTalk Philippines - Baguio

August 2019 to Present

I work as a full-time software developer in this company. I was able to work on different frameworks and tools like VueJS, AngularJS, CodeIgniter, Lumen, Ruby on Rails, MongoDB, MySQL, and WordPress.

Web developer

Dap-ayan Eatery

August 2018 to May 2019

I participated as an author of the Project Study entitled DapAyan Ordering Management System during the 1st public research at Kings College of The Philippines on April 6, 2019. I worked mostly on the front end and back end of the system, using mostly PHP programming.

Graphic Designer and Programmer

I Learn Skills Development Academy

September 2018 to December 2018

Creating web designs, mostly used is Bootstrap Framework. Helped in programming the back end and front end of system, Video Editing and Photoshop (Infographics, tarpaulins, images)
